## Homework Number Three – SQL

---

**Note:** GUI Query Editor Users: After you run some queries to create your tables, you might expect the new tables to immediately appear under the “object explorer” on the left side of your GUI query editor. They will eventually show up, but to see them appear right away, you will need to click on the “refresh” icon (if your tool has one.) If this icon does not appear, then click somewhere within your “object explorer” and the newly created tables should appear. (Depends on your query tool...)
